Bio

EMILY JOHNSON was born in Sofia, Bulgaria, at a time when the country was still under the influence of the Soviet Union. Her mother is Bulgarian and her father Nigerian, a mix which made her quite different from the other children in her own neighborhood and even her own country. Different by color, but also different in her heightened sensitivity which is expressed so wonderfully in her music.

"Open your heart," EMILY JOHNSON sings on her soon to be released debut EP of the same name. To her this statement is more than words; it is a way of life. On this release of original songs, she creates her art with something beyond passion, giving herself to her audience with a great generosity, energy, and sincerity. Emily brings others together to ignore prejudices, erase borders, and overcome difficulties.
